Re: PR Docket No. 92-235

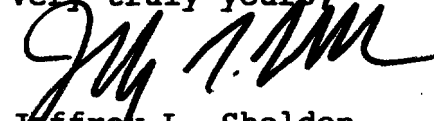

Dear Ms. Searcy:

Pursuant to Section 1.1206(a)(2) of the Commission's Rules, this is to notify you that Charles M. Meehan and Jeffrey L. Sheldon, representing the Utilities Telecommunications Council (UTC) met on May 5, 1993, with the Chief of the Private Radio Bureau and his staff to discuss some of the issues on the "refarming" of the private land mobile radio bands below 512 MHz. UTC noted its support for the Consensus Plan filed on April 28, 1993, by the Land Mobile Communications Council (LMCC). UTC also discussed the need for a transition plan that will not impose unnecessary burdens on radio licensees in non-congested areas, and that will permit stacking of channels for licensees needing higher data throughput.

The original and one copy of this notice are being filed for inclusion in this docket.

If there are any questions concerning this matter, please communicate directly with the undersigned.

Very truly yours,

Jeffrey L. Sheldon
General Counsel
